

RESULTS Training

Core Module 7 Ministry Approver Processing

The screenshot shows the RESULTS System web application interface. At the top, there is a green navigation bar with "Application Home" on the left and "Help" on the right. Below this is a dark green header with the word "RESULTS" in white. Underneath the header is a horizontal menu with buttons for "Search", "Inbox", "Openings", "Projects", "Data Submission", "Admin", "Event Tracking", and "Reports".

The main content area displays the following information:

- User information: "UserName: IDIR\MTSOI Environment: PROD Version: 04.09.00 on TINSEL"
- A large, faint "W" watermark.
- A heading: "Welcome to the RESULTS System"
- A date: "2013-06-18"
- The British Columbia Forest Service logo, which is a circular emblem with a tree in the center and the text "FOREST SERVICE" at the top and "BRITISH COLUMBIA" at the bottom.
- A paragraph of text: "RESULTS(Reporting Silviculture Updates and Landstatus Tracking System) is a web-based application that provides clients and government staff direct on-line access to Provincial spatially enabled silviculture information. RESULTS will track and report silviculture accomplishments, administer approved stocking standards and evaluate free-growing progress on obligations."
- A "Link to:" section with a bullet point and a link: "• [Application Website](#)"

At the bottom of the page, there is a footer with links for "Feedback", "Disclaimer", "Privacy", and "Copyright" on the left, and "Ministry of Forests & Range" on the right.

Sept 2013

Learning Objectives

- Approver Responsibilities
- Silviculture Prescription Amendments
- S108 Application
- Opening Amalgamation
- Propose Stocking Standards

Approver Responsibilities

Approver status is assigned by the District Manager.

RESULTS Items requiring approval are:

- Silviculture Prescription Amendment (SUB)
- FRPA s.108 Application (RELIEF)
- Opening Amalgamation (AMG)
- Proposed Stocking Standards – Woodlots or for FDP (SUB)

Approver Responsibilities

Must be legal context, if applicable (silv prescription amendment);

Must be familiar with program directives, if applicable (s.108 application where funding applies, if approved must reflect funding availability) or any policy direction

Amalgamation ensuring that there is adequate follow up to clean-up opening post-approval

Proposed stocking standards is appropriate and there is nothing that is already available and it done through the proper process (FDP vs. FSP)

All changes to the amendment is in Red.

Make sure review for all SUs for the opening.

Review the Amendment Rationale that provides context, reference to additional information (if provided attachments), etc.

Amendment Rationale:

The purpose of this amendment is to reduce the early free growing date for SU A by 2 years. Regen delay was declared for this block in 2006, which is 2 years early for SU A. A free growing survey was conducted on 2012/07/12 where the block was found to have achieved all requirements. Approval of this amendment will allow the submission of a free growing declaration.

s.108 Application

RESULTS FRPA s.108 Application

- Overview of FRPA s.108 – Legislation
- Requirements for s.108 Application using RESULTS
- Steps to complete the processing a s.108 Application (Inbox)
- Show key s.108 documentation links

s.108 Application - Legislation

FRPA s.108 – Government may fund extra expense or waive obligation

Because of an event causing damage (FPPR s 96 (1.1)), the obligation to establish a free growing stand cannot be met without significant expenses than would have been the case if the damage had not occurred, and

The person

- did not cause or contribute to cause of damage,
- exercised due diligence in relation to the cause of the damage, or
- contributed to the cause of the damage but only as a result of an officially induced error.

s.108 Application - Legislation

Minister must grant

- Relief of obligation, or
- Grant funding to restore stand of trees on the area affected by the event to the stage the stand had reached at the time of damage or to a stage that is consistent with an agreement between the person and the minister.

Must be Current on Reporting to submit s.108 Application

- ❖ Submissions that must be in RESULTS before the s.108 Application process
 - ❖ Pre-event forest cover: to reflect pre-catastrophic event stand condition. Note: this should be submitted first if not already in RESULTS.
 - ❖ Post-event forest cover : to reflect forest stand condition after the catastrophic event.
 - ❖ Submission of new disturbance activity to reflect catastrophic event

s.108 – Pre and Post Condition

Ensure Forest Cover Up-to-Date

[Save](#) [Delete](#)

Disturbance Record must exist for catastrophic event

s.108 – Retain Data Integrity

- ❖ Do not change the initial disturbance start date for the opening as this still applies to the original obligation of the opening.
- ❖ Must supply new disturbance to reflect new catastrophic disturbance. The disturbance area should reflect the net area under the s.108 Application seeking relief of obligation or funding request.
- ❖ New disturbance will not change the regeneration and free growing milestone dates.
- ❖ Must submit an amendment to extend regeneration & free growing dates and/or modify stocking standards.

RESULTS – Modifications to Stocking Standards

❖ Requirements to Modify Stocking Standards:

❖ Silviculture Prescription: Create and submit silviculture prescription amendment (requiring approval)

❖ Site Plans: Will need to submit a new stocking standard

a) **Site plans under FDP**: New standards must be submitted to RESULTS

b) **Site plans under FSP**: New standards must be submitted via the FSPTS and constitute an FSP amendment requiring approval.

Unless FSP has some language allowing for stocking standards modification via approved variations

e.g. For standard units where a natural disturbance occurred after area was reforested, the FG/RG offsets may be amended via approved variation to accommodate the disturbance

s.108 Application – Silv Prescription Amendments

- May need to initiate an amendment to accommodate changes caused by catastrophic event (NAR, extension of regeneration and free growing years, etc)
- Amendments should be completed and submitted prior to s.108 Application creation.
- This ensures the amendment is indicated and reflected in the s.108 Application.
- Approval of s.108 Application will also approve silviculture prescription at the same time.
- Approver must ensure they review content of the Proposed Amendment in the process of s.108 Application Review

RESULTS – s.108 Approver Review Steps

1. Ensure all pre-requisite information is in RESULTS (pre & post forest cover and natural disturbance report) and authorization boxes are checked. Note relief of obligation vs. request for funding.
2. If applicable, review submitted silviculture prescription amendment or if site plan.
3. (Approver) Reviews s.108 Approves or Not Approves s.108 Application
 - Approved: s.108 is in Approved (**APP**) status and cannot be changed.
 - Not Approved: s.108 Application remains in system in (**DFT**) status and can be deleted by submitter and start new or modified for re-submission.

RESULTS – FRPA s.108 Application components

Eligibility

- Obligation cannot be met without significant extra expense due to the damaging event.
- Obligation holder did not cause or contribute to the cause of the damage.
- Obligation holder contributed to the cause of the damage but only as a result of an officially induced error.
- Obligation holder exercised due diligence in relation to the cause of the damage.

I am authorized by the holder of these silviculture obligations to make this submission and I confirm that I have the appropriate professional designation to make this submission.

File: 280-30
Cliff 122539

NOV 25 2009

To: Regional Executive Directors
District Managers

From: T.P. (Phil) Zacharatos
A/Assistant Deputy Minister
Operations Division

Re: **Forest and Range Practices Act (FRPA) Sec. 108 Applications for 2009 Wildfires Update**

The purpose of this memo is to provide district managers with an update on procedures for processing FRPA Sec. 108 applications and specific actions that must be taken with respect to approval of applications arising from the 2009 wildfire season.

If an eligible event, as described under Forest Planning and Practices Regulation (FPPR) Sec. 96 (1.1), causes damage to a stand prior to the achievement of free growing status, the minister, under authority of FRPA Sec. 108 (2), must grant relief or provide funding to an obligation holder if the obligation on the area cannot be met without significant extra expense than would have been the case if the damage had not occurred. Any holder of a free growing obligation is eligible to apply. This includes licensees, BCTS, district managers and any "third party" obligation holders via FRPA Sec. 29.1 free growing transfers. The relief or funding will only be granted if:

- i) the person did not cause or contribute to the cause of the damage;
- ii) the person exercised due diligence in relation to the cause of the damage; or,
- iii) the person contributed to the cause of the damage but only as a result of an officially induced error.

As per FPPR Sec. 96 (1.1), a damaging event is defined as:

- a) a wildfire;
- b) an outbreak of *Dothistroma* in a lodgepole pine plantation, if the plantation was established before July 31, 2006; or,

Recommended considerations for FRPA s. 108 applications concerning *Dothistroma* impacts on free growing obligations

In order to grant relief or compensation under FRPA s 108 the obligation holder must satisfy the Minister that because of an event causing damage, the obligation on the area cannot be met without significant extra expense than would have been the case if the damage had not occurred, and the person did not cause or contribute to the cause of the damage, and exercised due diligence in relation to the cause of the damage.

Prior to approving a FRPA s 108 application concerning *Dothistroma* the District Manager must be satisfied that the obligation holder took all factors into consideration and all appropriate steps to minimize the impacts of this disease on the survival of the plantation.

Suggested factors to consider in assessing if the obligation holder did not cause or contribute to the cause of the damage, and exercised due diligence in relation to the cause of the damage are:

Date of the event causing damage

- The minister may not, under FRPA s 108, grant relief or funding in respect of an event causing damage if the event occurred before December 17, 2002
- Was a pine plantation established after *Dothistroma* was recognized as having stand destroying impacts in wetter biogeoclimatic zones/subzones and moist micro-climates (after December 31, 2003)

Site

- Was the site classified appropriately for site conditions
- Was consideration given to changes in site conditions as a result of harvesting or other external factors
- Did the description of the site identify and consider potential moist micro-climatic conditions.

Species

- Was the species chosen for reforestation appropriate for site conditions

Significant additional expense

- Is the cost of reforesting the site back to the stage where the damage occurred significantly greater than would be anticipated under normal anticipated plantation failures

RESULTS - s.108 Approval Guidance

Need to communicate with program lead on s.108 budget, unit costs and/or any direction on approvals

All approved s.108 tracked in RESULTS with funding request is reflects true cost of funding allocation.

Amalgamation

Amalgamation - AMG

- Requirement to merge multiple cutblocks to be managed under one opening
- Openings must belong to same org unit and same client
- Upon approval, Amalgamation stacks all SUs, all Activities and All Forest Cover together (automatically rennumbers SUs and FC polygons - a big mess), so expectation is that amendment to SUs and new Forest Cover will be provided shortly to clean up opening.
- There is no system's check for the post-amalgamation clean up – so **this must be locally monitored.**

Amalgamation opening represents the new opening (ie. 1554411) if approved with the combined information based on the amalgamation list.

It does not exist yet until there is an "Approve".

If "Not Approve", the new proposed Amalgamation Opening ID (ie. 1554411) will not exist.

Must review each of the amalgamation list items to ensure you are in agreement with the proposed amalgamation.

RESULTS610 - Event Description

Standard proposed is rejected. Rejection note contents: The expiry and effective date do not match the approval letter date on the woodlot license plan.

Approver Responsibilities

Must be legal context, if applicable (silv prescription amendment);

Must be familiar with program directives, if applicable (s.108 application where funding applies, if approved must reflect funding availability) or any policy direction

Amalgamation ensuring that there is adequate follow up to clean-up opening post-approval

Proposed stocking standards is appropriate and there is nothing that is already available and it done through the proper process (FDP vs. FSP)

Application Support

Please follow the steps below when you encounter a problem with RESULTS.

1. Review the [RESULTS Questions & Answers](#) web page to determine if your question has already been answered.
2. Check with your district resource clerk/LIM staff, if appropriate.
3. Contact your regional RESULTS contact if one exists. See the list of [Region and Districts RESULTS contacts](#) and [BCTS TSO RESULTS contacts](#).
4. Contact the Business Application Service Section (BASS). Please include the application name somewhere in the subject line so it will be sorted into the appropriate help folder.

Phone: (250) 952-6801

Training & Resources

Work is underway to transition to new training format.

Only the pre-recorded Live Meeting Woodlot modules will be available for viewing and can be via Windows Media Player. Please contact Application support to acquire download of the recording.

Online training is available for Core RESULTS Modules. Please refer to the link on any upcoming course offerings. Online training link for your reference:

<https://attendeegototraining.com/49x6s/catalog/3931598846459390464>

Face-to-face sessions are offered periodically, based on major application developments and/or special needs identified by operational, regional and/or headquarters level. *There are currently no plans for face-to-face sessions.*

An [online reference](#) also provides a high level overview for those who are new to RESULTS and need a general overview of the application components.
